Hon Alan Carpenter MLA
Premier of Western Australia
24th Floor Governor Stirling Tower
197 St George's Terrace
Perth 6000

To the Premier, Hon Alan Carpenter MLA.

We the undersigned citizens of Western Australia ask for your immediate support for the Greens' *Uranium Mining (Implementation of Government Commitments) Bill 2007.*
ALP support for this legislation is vital to prevent the WA becoming part of the deadly nuclear fuel chain.
Furthermore, this legislation simply enacts ALP policy and makes good a commitment by the former Minister for State Development, Clive Brown MLA.
It will not lead to claims of compensation by miners.
